Sir:

In response to the Office Action mailed October 8, 2002 (Paper Number 7) ("Office Action"), Applicant submits the following amendments and remarks.

IN THE SPECIFICATION

Please **delete** the paragraph spanning page 1, line 17 (under the heading "Sequence Tagged Connector Nucleic Acid Molecules and the Bacterial Artificial Chromosomes (BACS) Containing These Sequences") to page 2, line 4 and **replace** it with the following paragraph:

81

Sequence tagged connectors, or STCs, are sequences of insert data generated from both ends (at the vector-insert point) of a BAC clone in a genomic library. These sequences, and BACs containing these STC sequences, can be used, for example, for marker development, genetic mapping or linkage analysis, marker assisted breeding, and physical genome mapping (Venter, *et al.*, *Nature*, 381:364-366 (1996), the entirety of which is herein incorporated by reference; Choi and Wing, www-genome.clemson.edu/
